Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. The drawings are objected to under 37 C.F.R. 1.84(u)(2) because the view numbers are not larger than the numbers used for reference characters. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, the phrase "or alike" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "or

alike"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

Allowable Subject Matter

4. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

5. Claims 2-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. The following is a statement of reasons for the indication of allowable subject matter:

Peter et al. '150 discloses a diesel engine exhaust filter system comprising a carrier in the form of a tube (262), said carrier having radially permeable parts (264), said system further comprising a plurality of electrically conductive porous filter strips (236) arranged in parallel and wrapped around said carrier, said strips covering said radially permeable parts, and said system further comprising insulation means (265) to electrically insulate said filter strips from each other in Figs. 11 and 13 and col. 8, line 15 to col. 9, line 17.

Art Unit: 1724

The prior art made of record does not teach or fairly suggest the strips being wrapped around the carrier in a number of windings, the winding being separated from each other, and the insulation means electrically insulating the windings from each other.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Peter et al. '437, Peter et al. '682, and Chadderton et al. references disclose similar diesel engine exhaust filter systems.
